RAWDON ELECTS G. E. THOMPSON

Close Contest Between Bedford and Shortt for Deputy-Reeve

acclamation.

G. B. Bedford, who for the past two years has filled the office of deputy-reeve, having been given an acclamation each year, defeated Mark E. Shortt, Councillor for the past five years, by a majority of fifty-two votes. This was one of the keenest contests on record in the township, and the result was in doubt until the last poll was heard from.

SHOT ARCTIC OWL

Russell Rupert, Stirfing farmer, on Tuesday morning of last week. When displaying the bird at this office, Mr. Rupert Stated that it had been preying on his chickens for some time, and although he had made several attempts to destroy it, had been unsuccessful until that morning. The bird had a wing spread of five feet four inches and was the subject of much interest by those who saw it. Mr. Rupert intends to have it mounted.

WEEK OF PRAYER

Splendid attendance and helpful meetings have marked the observance of the Week of Prayer in the local Churches this week. The first meeting of the week was in St. Paul's Church with the officers of the Y. P. U. conducting the meeting. Miss Marjory Hagerman presided and was assisted by Miss Hilma Matheson, Miss Helen Jeffreys and Mr. Don Williams. Rev. J. A. Koffend of St. Andrews gave the address on the theme "Thanksgiving and Pettition", Mr. Scott led in one of the prayers and Mr. McConnell pronounced the Benediction.

On Tuesday night the meeting was polished performance for so early in the season. The addition of that veteran of mapy ice wars, Alex. Geraldi, to work with Ingram on the locals defence, added much to the team's effectiveness and once they round into shape the opposing forwards may expect a rocky road to the goal mouth. The Campbeliford squad proved to be a fast skating and hard working agregation, but were autmanceuvred by the locals. Hepstonstall and Fox, goaltending and had little chance on the shots that beat them. Stirling's kid line of Morton, Butler and Reid were the leading scorers for the locals, Butler getting two in the first and Morton one in the third, while Freser and Ingram were the other marksmen.

RAWDON ELECTION

While no election for municipal offices was held in Stirling on Monday, local citizens evinced considerable interest in the election held in the neighbouring township of Rawdon for the offices of Reeve and Deputy-Reeve. As a result of the contest for Reeve, Geo. E. Thompson, who has served in that capacity for the past five years, was returned with the largest majority ever accorded a candidate for the office, over his opponent, Phillip Carr, former Deputy-Reeve. Reeve Thompson has given good service to his township during the years he has been in office and there is every reason to feel confident that he will continue to give such service. In the contest for Deputy-Reeve, Mark E. Shortt, who has served five years as Councillor, opposed G. B. Bedford, who has filled the office for the past two years. Both these gentlemen are popular throughout the township, and one of the keenest contests resulted, with the final decision not being known until the last poll was heard from. With the departure of the loser from Council, W. Spencer will be the new member at the Council Board during 1938, and he may be expected to give dependable and sane consideration to the problems that may arise in the coming year.

Collectively, the electors of Rawdon township have chosen capables men to administer.

Collectively, the electors of Rawdon township have chosen capable men to administer their affairs during the year, and with times gradually improving there is every hope that the coming year will be more prosperous for all.

SUPPORT YOUR HOCKEY TEAM

The hockey season so far as the Stirling Intermediates are concerned, was officially opened at the local arena on Wednesday night last, when a fair crowd of spectators was on hand to witness a splendid game. While the locals lost they were far from being outclassed and the fans were treated to a clean and hardfought exhibition of Canada's National game, which should act as a strong drawing card for future games. On Monday night they registered their first win of the season against the strong Campbellford squad, and again gave a fine display. So long as the local players give their best, whether they win or lose, they should command the support of every sport-loving fan and fannette in the district. Good clean sport not only promotes loyalty to one's home town, but it provides an outlet for youthful energy and enthusiasm throughout the long winter months. The members of the local Hockey Club, under the presidency of Mr. C. A. Wells, have done everything within their power to assemble a team worthy of the support of the fans. In doing so, they have done their part. It now remains for the fans to get behind them and give them their support. The crowd which attended the opening game was one of the largest for some time, but it should have been larger. Judging from the many favourable comments heard following the game, we venture the opinion that when the locals play their next home game tonight (Thursday) the crowd should be much larger. What about you Mr. Fan? Can the local club count on your presence and support?

LICENSING BICYCLES

(Collingwood Bulletin)
Orillia proposed to license bicycles

It finds that it has no power to do so. It's town solicitor advises that cities have the power, but makes no mention of town. This being the case, other places, Collingwood included, are in wrong. At that it is to be regret ted. Here, the bleycle license by-law has proved of value in different ways Mainly it has notably lessened thefts of wheels. Here alone it has doubt School Fair held annually in connection with the Stirling Fair and contributed much to the success of the Society.

Always ready and willing to lend a helping hand in every worthwhile community enterprise, "Joe" had made for himself a host of friends in Stirling and vicinity, all of whom will wish him every success in his new field of labour.

A GOOD NEIGHBOUR

A good neighbour is an asset to any community. He is one, who, while interested in you, does not try to pry into your affairs, much less run them. He may not rate the title of a friend and yet he is friendly. He has a chest full of cheery "hellos" and passes them out freely. He makes you twice glad when he says "It's a fine morning." And a fine morning is much finer when you have a good neighbour to share it with and on the other hand a dull morning is much easier to bear.

A good neighbour is kind. Ordinarily he doesn't butt into your affairs, but if sickness comes he carries in trays of things to eat that are more than mere food. They are offerings on the altar of humanity whose aromas reach up to the divine.

If the illness proves too much for nature, neighbours and the doctor, the good neighbour comes in and lifts the load of common duties by sweeping, baking, arranging. Nothing is too menial for him and he does it graciously and without show.

In short, a good neighbour respects you for what you are, is kind, clean living, friendly helpful, unobtrusive yet Johnny-on-the-spot to see you through the worst that life can hand

Are you and I being the good neighbours we should be? Think it over.

CURRENT COMMENT

Motorists are again reminded of the dangers of carbon monoxide gas. When starting your cars these cold mornings, make certain that the garage doors are left open to ensure plenty of fresh air. Almost daily the press records deaths caused by this poisonous gas, so it doesn't pay to take any chances.

Human Nature is an odd mixture of credulity and incredulity. If you tell a man that there are two hundred and seventy billion stars, he will accept your word for it. But if you put up a sign "Beware", he will never be satisfied to the start of the star until he finds out why, regardless of the re-

Rubber fenders are becoming standard equipment on an increasing number of London buses, we are told. The durable and flexible fenders are made of moulded or pressed rubber. While so far they have been made only for buses it is expected that they will be made for passenger cars in the near future. What a relief that will be for those of us who are forever putting another dent in the fenders of the family limousine.

Saturday, January 15th, is the last day that motorists may legally use their nineteen hundred and thirty-seven license plates, according to an announcement made recently by the Minister of Highways. Despite the fact that the new markers have been on sale since October, their use is by no means general in this district. Since there is no issuer of licenses in the village the local motorists are required to journey to Belleville or elsewhere, which may prove somewhat of an inconvenience to many. One week from Saturday is the final day of grace, so local and district motorists should govern themselves accordingly.

which took effect the first of the year, Stirling and Community has lost a good citizen who was extremely popular and who had assisted freely in every enterprise pertaining to the community's welfare.

While as Agricultural Representative of Hastings County, the greater part of Mr. Wilson's time was taken up with the labours of his office, yet he found time to associate himself with the various other useful activities of the community. He was also active in fraternal circles, being a Past Master of Stirling Lodge No. 69, A.F. & A.M. PROVINCIAL POLICE FIND BODY

Found dead at her Campbellford home when a rear door was forced open by members of the Provincial Police, Mrs. James Lasher was said to have died from heart failure, according to Coroner Dr. E. A. Stuart. Neighbours became alarmed when they noticed a night light burning on a kitchen table late in the morning, and after trying to gain entry to the house, summoned Provincial Officer D. G. Campbell, who forced his way into the house to find Mrs. cial Officer D. G. Campbell, who forced his way into the house to find Mrs. Lasher dead in bed. A widow for nearly twelve years, she leaves one daughter, Mrs. J. Seabrook, of Campbellford. Seventy-six years of age and apparently in good health, he death came as a shock to neighbours who had seen her around the day before when she had been down town doing her shopping as was her daily custom.

FROSTBITE

The first feeling of frost bite is numbness and the first sign is marble whiteness. Treat by rubbing the froz-en area briestly with snow, ice or cold water, that is, if the frostbile has just occurred. If frozen more than 15 min utes, rub gently with snow, cold wate or kerosene. Do not rub hard or i will break the frozen flesh.

BRIGHTER HOURS

If you have stumbled yesterday, Remember there's tomorrow, The new bright road which you will tread

The new bright road which you tread
May lead away from sorrow.
If you had heartache in the past,
It's best to look ahead,
And find some signpost to the path
Where you'll be comforted.
And if the mists of grief are round,
And hope is hard to find,
Just trust that soon the way will clear
And clouds be left behind.
We rarely find two days alike,
Life's made of sun and showers,
And in dark days the bravest souls
Keep faith in brighter hours.

PHYSICAL INSTRUCTOR LOSES
USE OF LIMBS

If rheumatism is crippling your limbs, and making life miserable for you, read how this man obtained relief from the same trouble:—

you, read how this man obtained relief from the same trouble:

"I am a swimming and physical instructor. Early this year I had violent, stabbing pains in my legs from the hips to the big toe. In the mornings, I could not walk for three or four hours. Massage oil, pills, etc., did me no good. Someone begged me to take Kruschen Salts. In despair I got a bottle. After I had taken three parts of the contents, I was as fit as ever, except for a little stiffness of the joints, while in general health I was far better. Kruschen has put me on my feet again." — H.L.S.

Rheumatic aches and pains are often caused by the accumulation of too much uric acid in the system. Keep down the excess of uric acid and it stands to reason you'll get glorious relief. That is just what Kruschen Salts does — brings quick relief from the cutting, stabbing pains of rheumatism, because it actually rids your blood of excess uric acid.

Consequently, he made preparations to invade the small kingdom of Ethiopia in Africa, and this was bitterly opposed by Great Britain on the ground that Italy, being a member of the League of Nations, must submit this matter to the Council of this League instead of settling same by warfare. This led to other disputes, and today, the relationships between these two Governments is quite strained.

Mussolini's right hand man is his son-in-law, Count Ciano, who acts as the Foreign Minister of Italy, and his recent statement that "Italy's distrust of Great Britain has ended because of the firm adhesion of this nation to the Mediterranean Agreement of January, 1937" implies that the Italian ambitions are actually not as great as they would appear to be from a casual observation of the claims made in some quarters. The situation is not as serious as it has been pictured, particularly if it is remembered that Mussolini is regarded as a much better orator than statesman by the official estimations of the neutral diplomats on account of his actions in the Ethiopia crisis.

Eagle's View of Rio for Cruise Members

Not flying nor rolling down to aboard a luxury liner will go a happy crowd of winter cruise tourists next January when the Canadian Pacific liner Empress of Australia heads south from New York January 15 on a West Ingles and South America cruise. The glamorous Latin city that was named Rio de Janeiro because its harbor was discovered in the month of January and mistaken for the mouth of a river claims that the harbor is the world's most beautiful. Certainly other ports would have to show much to rival this claim, and there is hardly a doubt that the Empress of Australia's cruise pass—

FORECAST

Meaford's Indian weather prophet, 73-year-old George Waulkey, who has quite a reputation for predicting winter weather, declares that the heaviest snow is with us, and that the odd snow storm may occur in January, but half of the winter, in his opinion, is over. The district, he said, has had the heaviest part of the winter in December, and although there is going to be plenty of cold weather for the next three weeks, there will be an early spring.

A riend of mine driving his car in
city streets the other day stopped to
let two children cross the road—a
small girl by the hand. As they passded in front of the car the boy touched
his cap and said "Scuse me." My

said: "That child's a gentleman!"

THE MEANING OF "HORSEPOWER"

It has been estimated that to lift
550 pounds one foot in one second requires what is known as one horsepower. Supliarly a horsepower is
able to raise twice that weight one
foot in twice the time. Moreover it can
raise haif 550 pounds one foot in haif
a second or two feet in a second, and
so on. Therefore, if you are exerting
a horsepower.

Accordingly, when a person who
weighs 137% pounds runs upstairs at
the rate of four feet a second he is excerting the equivalent of a horsepower.

It is possible to do much more. As a
matter of fact, a horse often exerts
many times a horsepower.

To a man weighing twice that much,
275 pounds, it would be necessary to
climb at the rate of out; wo feet a
second to exert a horsepower. The
ayer
many times a horsepower. The
over many times a horsepower regine with
the same load would fall. A horse
power does not represent the greatest
momentary strength of the expense
horse, but is a measure of the power
which he can exert continuously.

pounds each.

The holes which are left at the end of the day reach the depth of about three feet but by the next morning are filled up again. The Lake is solid asphalt perhaps two hundred feet deep at its lowest point. Borings show that in consistency the asphalt is practically the same throughout.

From this eighth wonder of the world according to the External Trade Branch of the Dominion Bureau of Statistics, Canada imported over 300,000 pounds of solid asphalt last year. The home production amounted to 35 million gallons.

TO FLAMES

Residents of Marmora village battled futilely in a near zero temperature on Wednesday against fire of unknown origin that totally destroyed the garage and contents operated by G. McElwain and owned by the Joseph Dale estate of Belleville. Two trucks in the garage at the time, one owned by G. B. Airhant, Belleville, and the other the property of Sweet Bros. of Marmora, were a complete loss. First evidence that the garage, which is of cement construction and situated at the intersection of No. 7 and No. 14 highways, came when McElwain and his employees who were at dinner in the former's residence, a few yards away, noticed smoke pouring from one of the windows. Racing to the scene the men threw open the doors of the garage to be met with a sheet of flame. Removal of the trucks, accessories, and other contents of the blazing building was impossible owing to intense heat. A few minutes after the discovery of the fire, two small gasoline containers inside the building exploded.

INTERMEDIATES WIN AND LOSE

Tweed, the League Leaders, Play at Local Arena Tonight

Stirling Intermediates, broke even in their two scheduled games in the Trent Valley League during the past week, and as a result are in a four-corned tie with Trenton, Campbellford and Madoc for second place. Tweed leads the league with three straight wins. On Thursday night last the locals were at home to Duke Smith's "Sailors" from Belleville, and after one of the roughest games of the season emerged victors by the score of 7 to 2, and on Monday night visited Tweed, where they were defeated 3-4 in ten minutes overtime. The return game will be played in Stirling to-night (Thursday) when the locals hope to reverse the decision. Both teams play a fast and wide-open brand of hockey, and the fans are assured of their money's worth.

Thursday Game

A good crowd of fans was on hand on Thursday evening last to see the locals turn back the Belleville Dukes in a game that was featured by fine exhibitions of goal tending by both goalies. The final score does not detract from the work of Hinton, the visiting goalie, as he was under a bombardment of rubber for a good share of the game and it was only through his efforts that the score remained as low as it did. The first period was all Stirling, as they swarmed around the visitors' net, but it was not until midway in the stanza that Fraser heat Hinton on a pass from Robinson. Hinton on a pass from Robinson

Hinton on a pass from Roblinson.

Early in the second period Semark tied the score on a passout from behind the Stirling net, but Stirling again took the lead when Morton beat Hinton on a drive from the blue line. Belleville again tied the score on a fine play by McGufre, but Robinson of the locals broke away to go around the defence and score, making the count 3 to 2 at the end of the second.

Defeated by Tweed
Penalties materially assisted the teams in their scoring efforts, when Tweed defeated Stirling 3 to 2 in an overtime Trent Valley fixture on Monday night at Tweed. Close checking featured the initial period with Ingram scoring after Tummon was penaltized. Leal sank the equalizer early in the next period as Ingram decorated the penalty box. In the last period Prevost put Tweed up one as he beat Fox after Fraser was penaltized. Later Fox drew a penalty and Stirling moved up even when Robinson scored. At full time the teams were deadlocked two-all but in the overtime period Tweed set a torrid pace and had the larger share of the play. Meraw scored the tie-splitting goal amid loud applause in a last-minute rally. Stirling: Goal, Fox; defence, Ingram and Ackers; centre, Robinson; wings. Miss Jean Munro was then called upon to take charge of the meeting. The first part of the topic was taken by Miss Olive Munro. Her subject was based upon the Home Missions and their work carried on in the West, which is aptly deall with in a book entitled is aptly deall with in a book entitled

AL MAN IS AWARDED COUNCIL HELD FIRST MEETING

The inaugural meeting of the Stirling Village Codneil, each member having taken his Declaration of Office at eleven o'clock on Monday merning was held in the Co-well Chamber on Monday night and proved to be one of the lengthiest on record. The meeting opened at eight o'clock with Reeve Cranston in the chair and it was bordering on 2 am. before the motion for adjournment was passed. Councillors C. B. Rollins, F. Stapley, W. L. Anderson and Roy Eggleton were in attendance.

In his inaugural address Reeve Cranston welcomed the new members to the Council Board and stated he trusted the Councillors would all work in peace and harmony for the benefit of the ratepayers of the village.

Communications were read from the Canadian Law List Publishing Co. with reference to an up-to-date copy of the Statutes; from the Ontario Municipal Board giving approval to By-law No. 447 of the Village of Stirling for raising thirty-five hundred dollars for the construction and equipping of the new village well; The International Water Supply Company, referring to repairs on the present well pump; The Salvation Army seeking a grant for the Home; Ontario Department of Health, with reference to further efforts being made for immunication aainst diphtheria.

Reeve Cranston stated that the local Board of Health had forwarded a resolution to the Board of Education asking for their co-operation in this work, and that they make it compulsory for all children attending school after September 1st to be innoculated and resolution and resolution of the innoculated and resolution and resolution and resolution and resolution and resolution and resolution attending school after September 1st to be innoculated and resolution to the Board of Education and resolution to the innoculated and resolution to the innoculated

the warbins of the content of the co work, and that they make it compulsory for all children attending school after September 1st to be innoculated and vaccinated. A similar resolution was passed by the Council and will be forwarded to the School Board. Fire Chief's Report Fire Chief James Lagrow gave a brief summary of the activities of the Stirling Fire Brigade during the past year, in which he stated that there had been only seven fires to which the Brigade had been called, and which year, in which he stated that dieter had been only seven fires to which the Brigade had been called, and which aggregated a fire loss of \$1250. There had been a number of chimney fires which had been responded to by himself and one or two of the firemen, but no loss had been incurred. The fireman had been paid a total of \$168.00. This was a splendid showing in the opinion of Chief Lagrow, who stated that he didn't know of a town in Outario to beat it. In his opinion the fact that the Village was equipped with waterworks, making it possible to have water available at cnce, and the vigilance of Police Chief Eggleton who makes a nightly patrol had much to do with the small fire loss. The Fire Company consists of 12 members, to do with the small fire loss. The Fire Company consists of 12 members, the engineer and the chief, he stated, and recommended that one hundred feet of new hose be purchased each year. In closing he made a verbal application for the position of Chief of the Brigade.

C. R. Bastedo, tax collector for part of 1937, made application for the position for another year at a salary of \$150; or a salary of \$100.00 as tax collector and \$50 of a retaining fee as Village Solicitor.

FIRE DESTROYS
STIRLING HOME

The Stirling Fire Department battled for five hours in zero weather Monday night before they subdued a stubborn blaze that practically destroyed the frame house, west of Henry St. owned by Mr. David Wallace, and occupied by Mr. and Mrs. E. Dainard and family. It was approximately 9.30 pm, when the alarm was turned in and it was not until nearly 3 o'clock on Tuesday morning that the firemen had it suddued. The cause of the blaze is unknown, all the members of the family being absent when the fire broke out, and the flames had gained considerable headway before they were noticed. Mrs. Dainard, who had left home only a short while before to visit Mr. and Mrs. W. Gravers, neighbours, was at a loss to account for the blaze, as everything was in good shape when she left.

The first meeting of the Stirling Community Welfare Club under the guiding hand of President W. L. Anderson and his assistants, was held on Tuesday evening in the Community Hall. GLEN ROSS HEADS RURAL LEAGUE

Four games were played in the Rur-Four games were played in the Rural League during the past week, with Glen Ross maintaining their unbeaten record to lead the league. On Friday night last, Glen Ross defeated Zions 5 to 2, with Fraser, Rodgers, Dainard, Armstrong and McDonnell being the scorers. Townsend and Day counted for Zions. In the second game Corbyville defeated Sidney 4 to 1.

Tuesday night Glen Ross defeated Sidney 1 to 0, with Rodgers being the marksman, and Corbyville defeated Zions 3 to 0.

COMING EVENTS

It is to be hoped that members of Council will be successful in carrying their proposals to a successful conclusion with a minimum of expense and effort.

CUTTING TAXES

Of course, the remedy, in this particular direction, lies in the hands of our own people. If they insisted on "Buying Canadian" where price and quality are at least equal, on every occasion, we could soon hope for some increase in the number of Canadians who would be gainfully employed.

CURRENT COMMENT

Remember, Saturday, January 15th, is the deadline for purchasing your 1938 motor car licenses. Better to pay up than to appear be-fore the Cadi.

The curfew law is being enforced in the city of Oshawa in order to curtail juvenile delinquency. It might not be a bad idea if similar action were taken in Stirling.

How to avoid colds is always good for an official in most newspapers. Personally we have want to say that all these directions about how the to avoid a cold are nix, nux and nuts. If a cold accessors you there is only one thing to do, take it, and try to look pleasant until it has run its igal course. The person who invents seven sureors methods of losing a cold overnight can retire on the biggest fortune ever made by any one man, and that right quick. So says the Lamps, lighter in the Belleville Ontario-Intelligencer.

Those who fail to attend the Intermediate hockey games played at the local arena are missing some fine exhibitions of fast and clean play. While the locals got off to a bad start and have lost a couple of games, they have shown enough to warrant the prediction that once they gain condition they will provide worthy opposition for any team in the league. On Monday night they lost a hard game in overtime to their Tweed rivals but are confident that they will reverse the decision when they meet tonight (Thursday) at the local arena. The boys are doing their part to provide good entertainment for the fans of the district, and it is hoped that the latter will reciprocate with their vocal and financial support.

remarks, Reeve Cranston pointed out the was considerable work to be done in order that efficiency and harmony the municipality.

For a number of years there has been an agitation for municipalities to advance their time for elections from the first Monday of the New Year, or New Year's Day, to the first Monday in December. Not only is this true of the rural municipality.

In the quire the same attention from a present indicated the require the same attention from the first man to the earlier date would not conflict with the Christmas season, and would result in a heavier vote of the election with the waterworks Department will be faced at once with the problem there to place it under a Public Utilities is claimed by many that the disadvantages of the earlier date far outweigh any advantages which accrue. One of the chief complaints heard with regard to the earlier date is that a new Council of the system and employ a composition in the top of the chief complaints heard with regard to the earlier date is that a new Council selected a month previous to the closing of the town's financial year and much of the business of council is not placed before the allowing financial year and much of the business of council is not placed before the allowing financial year and much of the business of council is not placed before the allowing and repairing of some sidewalks, it is something that will require a closing of the town's financial year and much of the business of council is not placed before that an old council is placed in a very unsatisfactory position in having to do business after a new council has been elected. Stirling has always stuck to the old dates and while there are their attention.

What Others Say

THE ENGLISH WAY

(St. Catharines Standard)
A subscriber of the Standard has handed in an English paper and it is timely in view of what happened on the strotes and highways befory Christmas in this psylince. The first paragraph of the story reads:

"Stated to be a company director well known in Newcastle commercial circles, a Ponteland man was fined a circles, a Ponteland man was fined a come to it.

The STICKERS AND THE QUITTERS

(Picton Gazette)

There are deserters in every army. If they do not desert it is because they do not have a chance. They are always ready for it. And there are lots of people who never get so far into anything as to hinder their getting output. And does this country need that example of stern British justice? The average citizen hopes that some day we will known in Newcastle commercial circles, a Ponteland man was fined a come to it.

"Reduce Taxes" is always a popular cry and many ways of achieving this very desirable result which would benefit everyone are sug-gested by those who raise their voices. Possib-ly one of the most practical steps to lower the burden would be to find ways and means of de-creasing the enormous expenditures for relief which, although justified to a large measure, are adding to our national difficulties.

DON'T CROSS YOUR LEGS

which, although justified to a large measure, are adding to our national difficulties.

To reach this point work must be provided for the unemployed. Employment, however, is largely governed by consumer demand. As sales decline, so does employment. Conversely, if sales increase the services of more men and women must be utilized in the channels opened by the upward swing in buying.

That supports the point established by the Produced in Canada movement, to wit, that the more Canadian merchandise bought by our own people, whether it be from industry, the farm or our own waters, the more employment will be available, and, conjointly, the less money will be required for unemployment relief. That, at least, offers one way, even though it be small of tackling the problem of tax reduction. It has a two-fold advantage in that it assures more employment at the same time that it offers hope of some reduction in the enormous expenditures for support of our unemployed.

Of course, the remedy, in this particular

(United Press)

Don't cross your legs if you are riding with a reckless driver, advises Dr. Robert Funsten, professor of surgery at the University of Virginia.

Dislocations of the hip are frequent results of automobile collisions and present a serious surgical problem. The passenger in the front seat can avoid it by planting both feet on the floor boards and leaning well back in the seat.

If he crosses his legs, he is apt to dislocate his hip as well as injure his knee. That means confinement in a hospital for eight or ten weeks.

Thrift Note

When Queen Victoria was on her way to Balmoral Castle, a Scottish gentleman, whose gardens were noted for their fine fruit, sent a basket of hothouse grapes to her. Graciously she acknowledged the gift in a personal letter, and complimented the donor on the excellence of his grapes.

Thinking that his old gardener would be pleased to share the compliment, the gentleman handed the letter to him, saying "Here Sandy; that's from the Queen."

Sandy read the letter carefully; and after a long pause said, "She disna say onythin' aboot sendin' back the basket!"

The Scout Code

Fred, aged nine, had just become a Boy Scout, and it was obvious that the taking of the oath had made a deep impression on him. After relating to his parents all he had been through, he added:

"And so there'll be no need to lock up the lemon cheese an' ginger biscuits now, being a Boy Scout and having the company of other boys, Fred would try to be a man and not keep wanting to trail after his mother everywhere she went.

The hint was countered with a surprised stare.

"Well," said Fred, "if I'm too old to go with mother—what about you?"

"So you want to marry my daughter, young man? Why, we hardly know you. Have you enough to support her on?"

"No. I'm going to be married. But PII see to it that you don't get an invitation. So you'll save at least \$10 by that."

In a surprisingly short time the tramp returned; but an inspection of the woodshed showed all the logs carefully split, except one gnarled, knotty old stump. Well satisfied, she spread a generous meal before him, and as he ate, she said: "I do wish you'd tell me how you' split those logs so quickly and so easily."

"Why, madam. I simply stood beside them and told them funny stories and they split themselves."

In the middle of the night there was a great commotion in the wood-shed and on rushing in to investigate, the amazing discovery was made that the gnarled, knotty old stump had split itself into a thousand pieces.

It was a piece of English walnut.

BELLEVILLE MARKET

A fine display of farm produce featured Saturday morning's Belleville Market in spite of the zero weather. Eggs perhaps were the most notice-eable feature in the inside mart with quantity outstanding. There were plenty of eggs available with prices hitting a new low. Ungraded stock was offered generally at twenty-five-cents per dozen, although a few vendors held out for five cents higher per dozen for selected grades. Mediums were quoted at twenty-three cents with pullets offered at twenty and twenty-one cents. wenty-one cents.

price, he stated.

Farmers butter also noted a rise of five cents in most quarters. These vendors sold their stock at thirty-five cents a pound with two-pound rolls selling at seventy-five cents. It was available at some booths however, at sixty-five cents for two-pound rolls.

Chicken prices showed little inclination to decrease over holiday quotations. Good weighty birds were offered at from one dollar to as high as one dollar and one half each, with chickens of varying size and quality selling at commensurate prices. No turkeys were noted on the market.

and when they must be kept inside, due to bad weather, they should be allowed sufficient pen space to exercise freely.

With regard to providing warm and dry sleeping quarters, if there are buildings available it would be unwise, and not economical to build new pig quarters. Even old buildings should be remodelled only sufficiently to ensure comfortable feeding and sleeping accommodation. Sufficient trough should be provided so that each pig will have an opportunity to secure a fair share of the feed. If the building is draughty or likely to be cold, the construction of a covered sleeping berth will be well worth consideration. It can be constructed of any available lumber in a dry corner of the feeding pen. The sleeping berth should not be more than three feethigh and covered with boards and straw, and just large enough in area to house the pigs comfortably in a bed of dry clean straw.

MARRIED

CLUTE-HARRINGTON January 7, at 9t. Cyprians Church, Toronto, by the Rev. H. P. Charters, Marjorie Leslie, daughter of the late Mr. and Mrs. N. J. Harrington, Wellington, to Gerald L. Clute, son of the late Mr. and Mrs. T. G. Clute, Stirling, Ontario.

WILLIAM BROADWORTH

WILLIAM BROADWORTH

William Broadworth, highly respected resident of Rawdon Township, passed away at his home on the Stirling Marmora Highway, about two and one-half miles north of Stirling, on Monday, following an illness that extended over a period of years. Deceased was in his sixty-seventh year. Born in Deloro, the late Mr. Broadworth resided for some time in his native village before moving to Rawdon Township where he resided for the past forty years. He was a member of Stirling Lodge A.F. & A.M. and Stirling Lodge 239, I.O.O.F. He leaves to mourn his passing, two daughters, Mrs Wallace McInroy, Springbrook, and Mrs. Ross Thompson, Stirling; and six sons, Kenneth at home, Raymond, Belleville; Ernest Rawdon, and Arthur, Gerald and Donald of Kapuskasing, and four brothers, Joseph, of Oak Hills; John, Saskatoon; Isaac, Madoc, and Fred, Ivanhoe. The funeral was held from Bethel United Church on Thursday afternoon with Rev. J. E. Beckel officiating.

GUIDES AND BROWNIES REMEMBER MRS. WILSON

A most enthusiastic meeting of the Guides and Brownies was held in the auditorium of the Stirling High School on Thursday afternoon at four-thirty. The Guides were under the leadership of Lieutenant Lenora Ward and the Brownies were led by the Brown Owl, Helen Jeffrey. Mrs. W. H. Pedley and Miss B. Burch assisted with the Brownies. A most enthusiastic meeting of the

this year, a pattern was bought and everything all ready to start again, but too late.

We wish for you every success and all happiness in your new surroundings, and when, in the years to come, you think of Stirling, we hope your memories of us will be as pleasant of us as our memories of you; and as a slight token of our appreciation of your willing guffance, may we ask you to accept the "Thank You" pin, the highest tribute we can pay you. Signed on behalf of the Girl Guide, Brownies and Local Organization — Kathleen Mundy, Captain; Jean Mun-ro, Brown Owl; Minnie M. Potts, District Commissioner.

A short business meeting of the local Council followed in which the election of officers for the ensuing year took place, which resulted as follows: District Commissioner — Minnie M. Potts.

Vice-Chairman - Mrs. H. C. Mar

tin.
Sec.-Treas. — Miss B. Burch.
Guide Captain — Mrs. C. Dracup.
Lieutenant — Lenora Ward.
Brown Owl — Helen Jeffrey.
To assist with the Brownie work
the following ladies were duly appointed: Mrs. W. H. Pedley, Mrs. H.
P. Ells, Mrs. H. Rollins, Mrs. J. L.
Good and Miss B. Burch.
The interest shown by the ladies in
the welfare of the work bespeaks a
very promising future for the work of
the Guides and Brownies in Stirling.

Sunny seemed loathe to tell all. Her mind raced as her actions played for time. With true feminine instinct she decided on one last gamble. She must preserve her secret at all cost. Instantly her manner changed. The old seriousness gave way to something softer. Her next words held a world of meaning.

"Don't you think you care for me—a little, even after all that's happened?"

Monty was caught off guard.

OTTAWA

(By Dean Wilson)

Well-informed circles on Parliament Hill intimate that a sensational battle will result in the House of Commons when the proposed new trade treaties are disclosed and offered to the Federal legislators for their sanction, since authoritative sources in Ottawa do not hesitate to point out that there is a growing opposition in this Dominion to any policy on the part of this country which would surrender any valuable exclusive concessions in the United Kingdom or lower the amount of sales which Canada is making in the United States. In other words, hardened men of business and industry of this Dominion are not showing any inclination to yield their valuable economic rights for the prilege of participating in any noble gesture of any high ideal which aims to help bring about a better co-operation between the United States and Great Britain. It is many months ago that this column revealed exclusively certain details of the proposed Anglo-American Treaty and it was pointed out here at that time that Canada was playing an extremely important role in this historic and highly significant union of the English-speaking nations of the world. Moreover, this column had discovered from a well-informed source that the delegates at the Imperial Conference at London had discussed the possibility of adopting a measure to free world-trade from the hindrances which impeded its recovery and that the proposed Treaty was but a start in an ambitious effort to safeguard peace and to increase economic security throughout a restless world by lowering tariffs, stabilizing currencies, and generally removing the barriers of trade with the British Empire, which would tend to destroy economic nationalism and force the anti-democratic countries like Germany, Italy and Japan to come within the free trading areas or face ruination on the international financial markets. Of course, this was denied at the time but subsequent events have corroborated entirely the advance information of this column.

However, there is another important angle to this momentous problem that is being talked about on Parliament Hill and this will be reported in next week's column.

United States, only 30 carriers were found.

There results go to show that the problem of the typhoid carrier insofar as the food handler is concerned, while a dangerous problem, is not nearly so serious as one might expect. One, who habitually takes his meals in restaurants, is subject to whatever danger there may be in this regard. Many types of food are served in eating establishments without being cooked to a degree which ensures sterilization of the food. Many salads desserts and certain types of pastries are not exposed to heat after being prepared. These are subject to considerable handling. Moreover, many of these articles of food are exposed for hours after their preparation. The danger from flies undersuch circumstances is obvious.

The danger from a cook who is a a chronic typhoid carrier, is greatly aggravated if the cook is not of the most cleanly habits. The classical example of the notorious "Typhoid Mary", is an example. This cook had been employed in seven families dur-

TYPHOID CARRIERS

According to the report of the American Public Health Association, a total of 565 typhoid carriers have been discovered in the City of New York since 1915. This amounts to one carrier in every 100,000 of population. These were found as the result of epidemioloical investigations made in connection with cases of typhoid, fever or in examinations of patients convalescing from typhoid. In contrast to this, out of three and one-half million routine examinations of food handlers during the last 18 years in the United States, only 30 carriers were found.

There results go to show that the problem of the typhoid carrier insertance, while a dangerous problem, is not nearly so serious as one might expect. One, who habitually takes his meals in restaurants, is subject to whatever danger there may be in this regard.

STIRLING NATIVE GIVEN "STAR" FOR RESEARCH

Dr. Thos. Hume Bissonnette, Professor of Biology in Trinity College, Hartford, Conn., eldest son of the late Dr. J. D. and Mrs. Bissonnette, of Stirling, Ont., has received the star for research in the new edition of "American men of Science." This is a biographical index to American scientists who have done investigation or teaching in the natural or physical sciences and mathematics much like a "Who's Who" of such scientists.

The star is given to those, approximately 1,000 in number, whose research work is considered by those in their fields to be most important.

Approximately 250 stars were added for the last five years in these sciences taken as a whole.

Dr. Bissonnette's star was for investigations of the effects of external factors such as light upon the seasonal breeding activities of birds and mammals, particularly starlings, pheasants, quail, ferrets, raccoons and others and on the activities of their reproductive and ductless glands. The many friends of Dr. Bissonnette will be pleased to learn of his success in the science world. Dr. Thos. Hume Bissonnette, Profes

ST. ANDREW'S W.M.S.

The January meeting of the Women's Missionary Society met at the home of Mrs. Sheldon McIntosh on Tuesday. This meeting took the form of a prayer service, by all repeating in unison "O Thou by Whom We Come to God, the Life, the Truth, the Way, the path of Prayer Thyself hath trod, Lord teach us how to pray.", After the business part of the meeting a short memorial service was held in memory of the late Mrs. A Fargey, who was an active worker of the W. M.S. This was conducted by Mrs. Koffend, who opened the service with a hymn and prayer, Silent prayer, thankfend, who opened the service with a hymn and prayer. Silent prayer, thanking God for her life, and that others may be like her. Mrs. Koffend then gave a short talk on her life and the interest taken in church activities. At this time, Mrs. W. Jones sang 2 solo "We'll say Good Night here, but Good Morning up There." Letters of sympathy were read from the Presbyterial and from St. Peter's Presbyterial and from St. Peter's Presbyterian W.M.S. of Madoc in the loss of so valued a member as Mrs. Fargey.

Scripture readings were ready by different members. Prayer for all members and officers of the Women's Missionary Society. Conditions of Effective Prayer, led by the leader, Mrs. Tompkins, are humility, faith, obeditions of the service were ready and the service with a bidding in His

tario; Cheloe, China, and from Waltair, India, while concluding the programme Sir Robert Falconer gave a short, gripping address sounding the challenge to the church to greater acceptation of the menace of world situations.

When the broadcast concluded, the business of the annual meeting of the Official Board was proceeded with the minister, Rev. W. J. Scott, M.A., presiding throughout.

The reports, all of which were of a most encouraging nature, showed fine progress in every department of the Church's work, and one of the best financial years in the history of the Pastoral Charge, was reported. During the year, both churches have been renovated throughout and at Carmet the electric lights have been installed in both church and shed. A hearty vote of confidence and appreciation of the work and leadership of the minister during the past year was unant mously passed and the thanks of the Board tendered to him and to Mrs. Scott.

The dates for the annual meetings of the Congregation were set with that of Carmel being on January 18th, at

All joined in singing "For She's a Jolly Good Fellow."

Mrs. M. Tompkigs put on a contest which proved both interesting and entertaining.

A very successful meeting was brought to a close by the singing of the National Anthem, after which a dainty lunch was served.

A hearty vote of thanks was tendered the hostess.

SUCCESSFUL EUCHRE HELD

SPRINGBROOK LADIES' AID

The Ladies' Aid of Springbrook held their January meeting at the home of Mrs. F. Bateman. At 12 o'clock the ladies served a tasty dinner in the form of a pot-luck dinner. The table was decorated with silver vases and flowers, also heavily laden with splendid variety of eats. After dinner the meeting opened with the President, Mrs. F. Bateman, in the chair. All joined in singing "The Lord Raised me," with Mrs. C. Sine at the plano. All remained standing while the President, of the president of the presence of the prayer was repeated in unison. Psalm 141 was read responsively, lead by the President, followed by singing the Theme Song. Mrs. Harding led in prayer. The roll call "A New Year's resolution" was answered by twenty members. The minutes of the last meeting were read by the Secretary, Mrs. Harding, and adopted. Business part of the programme rested on plans for a supper social to be held in the near future. Reeve Cranston, who is also a member of the Hydro Commission for the Village, introduced the question of establishing a Public Utilities Commission in Stirling to have charge of the Hydro and Waterworks systems. The local Hydro Commission had received notification from the Ontario Commission that the present arrangement, whereby the local Hydro employees look after the waterworks, does not meet with its approval. It was plainly a case of establishing a Public Utilities Commission or making some other arrangements for the management of the waterworks, stated the Reeve.

Since little was known by members of Council as to the various details of the matter it was laid over until a later meeting for a decision. In the meantime members of Council will endeavour to secure all possible information on the matter. Clerk G. H. Luery was instruced to write different Municipalities where the Public Utilities are administered by a commission; also to the Municipal World, to ascertain the necessary procedure for Council to take.

Contracts for pumping equipment for the new Village well were tabled from the S. A. Lister Co., but in view of the indecision as to the future management of the waterworks, action was deferred.

Complaints were heard that merchants having accounts for supplying relief were lax in turning in their bills at the end of each month, resulting in objections being raised by the

Government Inspectors. Clerk Luer, was instructed to advise those supplying relief that unless their accounts were rerdered monthly they would not be considered by Council.

The matter of feeding transients was also discussed at some length, but no definite action was taken.

Bylaws to authorize the borrowing of \$15000 to meet current expenses during the ensuing year and to appoint municipal officers were given their several readings, passed and numbered 449 and 450 respectively, with Reeve Cranston in the chair. Following are appointments:

Treasurer — R. A. Patterson, salary \$200.

Clerk — Geo. H. Luery, salary \$200.

Former Teacher Dies

Word has been received in Stirling of the death of Miss Caroline Jean McRae, a former teacher on the staff of Stirling High School. Although not in the best of health for the past year Miss McRae passed away quite suddenly at her home, 36 Melbourne Ave., Toronto, on New Year's Day last. Previous to her death 'she had taught in the Classics Department of the Humberside Collegiate, Toronto, for the past seventeen years.

Born in Belleville, she later moved to Perth, Ontario, where she received her High School training. After being graduated from Queen's University with high honours, the late Miss McRae was a teacher for five years in Stirling, she taught at North Bay Collegiate, and Prince Albert, Sask., High School, coming to Humberside Collegiate seventeen years ago.

Her many friends and former pupils in Stirling and vicinity will regret her

Tweed Defeats Locals

With three of their regulars on the sidelines, the local Intermediates proved no match for the league-leading Tweed sextette at the local areas on Thursday night last and were defeated by the one-sided score of 5 to 1. The visitors outskated and outplayed the Stirling "Red Shirts" from the opening whistle and it was not until the third period of the game that the locals started to click and then "Shirt" Thompson proved unbeatable. The game was played before the largest crowd of the season and was an exhibition of wide-open hockey and plenty of scoring, only by the wrong plenty of scoring, only by the wrong team to suit the fans.

Potter took over the right wing duties. Whether or not the change was responsible, the locals gave the poorest display of the season for the first two periods. In the last period Reid and Morton changed positions and the locals' plays began to click better, but it was too late. Ackers and Geraldi teamed up on the defence for the full sixty minutes, with the former being responsible for the locals' only goal, when the worked a passing play with Reid near the end of the first period. LABOUR AND EMPLOYMENT

Labour, as the term is commonly understood, has more than a theoretical interest in the movement afoot to stimulate the sale of Produced in Canada merchandise because there is a very direct relationship between "sales" and employment.

Every "sale" represents direct employit to a variety of people outside the category he producer and the one who makes the aria. There is the office staff in the plant, the astrics which, for instance, supply containthe printers who issue the descriptive foldor labels, the stores which sell the article, all the other associated industries which ploy men and women who are directly or rectly associated with the transfer of that cle to the consumer. So that, when a Product of the consumer is sold it provides empment to more than the one who turns out finished product.

It is a mistake, however, to believe the consumer in the consumer of the consumer.

ne finished product.

It is a mistake, however, to believe that the Produced in Canada idea is limited solely to the manufacturing branch, of our economic fife. It applies with equal force to the farmer on the prairies who is selling his grain, livestock or field crops; to the Maritime fisherman gathering his harvest from the sea and sending it all over Canada, or to the man who is blasting metals or coal out of the Canadian terrain.

als or coal out of the Canadian terrain.

Labour, therefore, should profit by the deponent of this movement because it has a y important bearing on the pay envelope; it follows that the more support given to thering the Produced in Canada plan, proing of course that prices and quality are satisfied, the more chance Canada will have of using the number of unemployed in the Donion.

something for their services. The employees of any business concern are paid for carrying on its affairs, and it is only fair that those who conduct the business of a municipality should receive some remuneration besides the honour and glory of holding office. Many comments are heard from time to time about the dearth of candidates seeking public office and it is just possible that the lack of remuneration is the reason. There are many citizens who hesitate from accepting public office with the accompanying loss of time from business, and all kinds of criticism, who, if assured of some remuneration, might offer themselves for service. On a number of occasions the matter has been mentioned by local councils, but no definite action has been taken. We have no way of telling what the reaction of the local ratepayers might be if the Council decided to vote themselves an honorarium, but we believe that the time is not far distant when they will have to decide on the question.

The Marmora Herald had the following to

The Marmora Herald had the following to gay on the question of payment for the Council

The Marmora Herald had the following to say on the question of payment for the Council:

"While there may be some criticism of the action of the Village Council in voting themselves pay for attending regular meetings it is only fair and reasonable. The duties of members of the Council have greatly increased in recent years, while the attitude of the public has also changed so that members receive very little thanks for what they do and a lot of criticism. Years ago it was considered quite an honour to be elected to the Municipal Council and there was generally a number of aspirants to the office. Now it is frequently difficult to get the required number to qualify. In former years it was also easy to get citizens to assist in any public enterprise, but today nearly everyone who does anything for the municipality expects pay for it. There are about twelve regular meetings in a year, but that is only a small part of the time which a member of the Council has to give to his duties. Special meetings, committee meetings and looking after the particular duties assigned to each member takes a lot of time during the year and \$24.00 is only a nominal amount in payment of the services rendered."

CURRENT COMMENT

It is understood that consideration is being given the possibility of increasing the two-dollar fee on radio receiving sets, and according to Trade Minister Howe, no decision has yet been reached in the matter. Just why there should be an increase in this fee is hard to say. When the fee was raised from one dollar to two we were given to understand that there would be a big improvement in the programmes broadcasted and better reception, but we doubt if the results have warranted the increase. We still have powerful Mexican and American stations interrupting reception from our Canadian stations, and apparently there is little that can be done about it.

Saturday was the last day for using the 1937 automobile markers, but there were many who left off purchasing them until almost the last hour and were compelled to stand in line for hours before being served. Others fought shy of the ordeal and waited until Monday to get their new markers. Some idea of the last minute rush may be gleaned from the published report that the issuer of licenses at Belleville sold over 500 sets of markers on Saturday alone, and no doubt could have sold many more had there been facilities provided to accommodate the crowd. In spite of the fact that the new markers have been on sale since October, there are still a few motorists without them. The Minister of Highways has announced that there will be no extension of time and the police have been instructed to "crack down", upon these tardy motorists.

The annual meeting of the Stirling Horting and splendid reports on the activities of the Society was held on Thursday last, and splendid reports on the activities of the Society was held on Thursday last, and splendid reports on the activities of the Society was held on Thursday last, and reading the manipulation of the past fifteen years has again accepted the earning number of urban municipalities, each year. And after all, why not? Both the Reeve and Councillors of the neighbouring townships, while their pay falls far short of compensating them for the actual time spent in carrying on the business of the municipalities, receive a mominal salary for their work, and it seems that members of a Village Council should receive the same consideration. THE BUYER WHO FOOLS HIMSELF

(Smith Falls Record News)
From time to time The Record.
News has referred to the jay-walker.
We feel confident everyone has met the jay-walker — if you drive a car you probably have been compelled to suddenly jam on the brakes to avoid hitting him — or her. The jay-walker crosses the street whenever and however he pleases. He takes intersections on a diagonal. He is never content to follow the regular path. He thinks he is saving time. But is he? The dodging, jumping and backing up, use up more time than it would take to follow the regular path, and he is taking a needless risk.

The jay-walker has a brother — the jay-buyer. Although not a product of the so-called depression which we have experienced, his numbers are legion. The jay-buyer knows a way to buy things cheaper. He knows a man from whom he can buy radios at half-price; a small mail-order house, that will sell to him at wholesale prices. His favourite pastime is telling his friends what suckers they are and how much money he could have saved them had they only come to him before finishing their new home or buying a car.

He thinks he is saving money, but somehow or other he just cannot make his income go as far as his acquaintances who read the advertisements and buy standard goods from reputable merchants whose guarantee means something.

Mr. and Mrs. George Carlisle and opened with a hymn and prayer, at ter which Mrs. Ritta Wilson, 2nd vice earnestly desire to add our good wishes to those already extended to you. In faithfulness you have been one of us and the loss of your executive ability within our group will be deeply felt. In spite of separation we hope to still count you as one of the most active originals.

We would not let our selfish desire to hold you in our midst, hamper the natural progress which one of your ability must make. Each of us take personal pride in your excellent work and feel that your road leads upward in the profession you have chosen. As you ascend to greater heights in days to come may there always be fond memories of the old gang back home. We ask you therefore to take this very slight gift, not in payment for your services to us, for there is no medium by which such valuations could be estimated. This useful little article is just a token of sincerity from a small group of proud friends, and with it go the very sincerest wishes for a happy and successful future.

EIGHTEENTH INSTALMENT

Monty Wallace, round the world light here, has been blackmailed by Virlan Morgan, who claims Monty to be her husband. Monty has been engaged to Natalie Wade, a newspaperwoman. Sunny Marion, daughter of Jabe Marion, airplane manufacturer, who backed Monty on his record-making flight, was engaged to marry Jimmy Hale, newspaper photographer and fellow staff worker with Natalie under their editor, Mack Hanlon.

Monty is being feted at a testimon-ial dinner given by the Mayor, and he deeddes to take Sunny instead of Nat-alie. Sunny realizes that perhaps Monty loyes her after all and we in-vite you to conclude the story in this last instaiment.

"It wonder if Nat and Jimmy will last instalment."

"Mont!" she cried in exuitation, —
"You darling!"
And then came the ever-feminine query:
"But what am I going to wear?"
"I like us just the way we are—and they'll have to like us the same way," asserted Monty, smiling down at her.
"TI dust off the shine and be with you in a minute!" was all that Sunny very could say.

As they left, arm in arm, their first step into the crisp evening air seemed to herald a changed world—at least for them. In a trice they were ed, to herald a changed world—at least for them. In a trice they were eated in the long, shiny black car. The motor purred, and they were off, on the happiest evening of their lives.
"We're going the way we are!" retorted Monty, "if they can't take us at hil!"
"Octting a little independent, aren't you?" bantered Sunny.
"Why not?" countered Monty, "No."

"I wonder if Nat and Jimmy will be between the belowout." remarked Monty, mal to her evening air seems. "And then came the ever-feminine them."

BELLEVILLE PRESBYTERIAL OF

The semi-annual Executive meeting

of the Belleville Presbyterial Woman's Missionary Society, met at Bridge St. Church on Thursday, January 13th, with an attendance of sixteen.

The President, Mrs. Haggerty, presided at the morning and afternoon sessions; also conducting the morning devotional period with a splendid advess on love — one of the outstanding qualities of steadfastness. This being stock-taking time, Mrs. Haggerty urged that each member review their urged that each member review their lives. God expects submission and

loyalty.

Regret was expressed that several were absent through illness. A letter of sympathy was sent to Mrs. Finlay who has illness in her home, and flowers to Mrs. D. B. Wilson, who is a patient in Kingston Hospital. Mrs. VanBlaricorn read a letter written by Mrs. M. E. Knox, acknowledging roses that had been sent her by the members at the last executive.

Each secretary gave reports of the year's work accomplished in her department. Optimism and an increase in givings was noted, but the question was asked, out of our abundance, have we denied ourselves?

Mrs. Herrington, the treasurer, reported \$5,844.36 to date, an increase over last year.

Vacancies to be filled are: President, Third Vice-President; Temperance, Finance, C.G.I.T. and Baby Band Secretaries.

A great many business matters were discussed and plans were made for the Presbyterial to be held in Grace Church, Napanee, Feb. 9-10.

Dr. W. R. Fletcher, President of the Presbyterily, gave an inspirational address at the afternoon session, and brought greetings from the Presbytery.

THE MOST ADVANCED

CAR IN THE WORLD

A New Engine... A New Ride... Like Nothing Else in Motoring

Before you've driven the 1938 McLaughlin-Buick a hundred yards, you'll sense two things marvellously new.

First, the amazing power—acceleration—quiet and smoothness—of the new DYNAFLASH Valve-in-Head Straight Eight Engine, the most advanced engine in the world! Second, you'll thrill to the new ride-sensation— TORQUE-FREE Springing. Soft; shock-smothering coil springs now replace the old leaf-type springs now replace the old leaf-type rear springs. You enjoy unmatched floating comfort. Skid risks are greatly

reduced. The car is safer and easier to handle. You get more mileage from tires.

Both these great advantages are exclusive, found on no other car. That's why we say—see the new McLaughlin-Buick, drive it and buy it now. . . for the biggest value in motoring, and matchless safety and dependability in the bad driving weather ahead.

The remaining portion of the program was directed by Geo. Duffin, Convenor of the Christian Citizenship Department. The first number on this part of the programme was a splendid reading given by Reginald Matheson. Donald Scott then offered an instrumental solo which was greatly enjoyed. The speaker of the evening was Geo. Justin, who delivered an interesting and educational address on the subject of "First Aid". Being a member of the St. John's Ambulance Corps, Mr. Duffin ably dealt with the subject of accident prevention, poison infection from insect bites, stings, etc., and at the conclusion of his address was assisted by Don Williams in demonstrating the principles of artificial resustration. The entire program was one both helpful and instructive.

Mr. S. A. Murphy spoke briefly on the Art section and urged the directors to make some effort to interest the amateur artists of the district and the school children in this department of the Fair.

Mr. H. P. Ells, chairman of the Entertainment Committee, gave it as his opinion that the Society should abandon to trials of speed at the coming Fair and substitute more novelty races for the farmers of the district. The trials of speed for the past few years had falled to provide much entertainment for the fair patrons, while keen interest had been shown in a number of novelties presented.

The appointment of a Secretary was the first item of business to come before the Directors and Mr. F. R. Mallory was re-elected to that office. Mr. G. Thompson, who has been the very efficient and painstaking treasurer for the past three years, tendered his resignation, and Mr. W. H. Patterson was appointed to the office. Both offices will receive the same salaries.

The remainder of the meeting was taken up in a discussion of ways and means of raising funds to liquidate the outstanding indebtedness of the Society. A number of suggestions were offered and following their consideration by the Programme Committee, a meeting of the directors will be held on Saturday afternoon next.

Fraser was not as effective as usual, while Reid gave his finest display on local ice, and gives promise of developing into a star.

For the visitors, every man turned in a good effort, with the work of Long at centre on the starting line, and Thompson in goal, being outstanding. The team plays a crowdpleasing brand of hockey, and whenever they return to Stirling are assurved of a good crowd to see them perform. The scorers for the visitors, were Long, W. Last night's victory was the third for the "Red Shirts" in the past week, Made and Trenton falling before the puck wizardry of the locals on Thursday and Monday nights respectively. Playing on a fast sheet of ice, Stirling showed a marked superiority over the visitors for the first two periods, and it was only when victory was

from just inside the blue line. Oddie drew a penalty for boarding Morton but no damage was done before Robinson got the gate for hooking. While Robinson was off, Geraldi broke up an offensive thrust by the visitors and rushed with Ackers to give the latter a pass in the open and he picked the corner for goal number five. Stirling Beats Madoc Here

In a game that featured fast hockey and outstanding displays by two veteran goalles the Stirling Intermediates whipped the Madoc six to the ture of 4 to 1, in the local arean on Thursday night. Madoc had previously beaten Stirling by the score of 3 to 2, and a large crowd of fans were on hand to see the "Red Shirts" take revenge. Fox in the Stirling net and "Buck" Hullin, who has but recently returned to the hockey wars to guard the twine for his home town team, are both veterans of Trent Valley League hockey and turned in high class performances, with the latter being particularly brilliant in the first period.

goals.

Robinson, with five goals, was the star for the locals, but he was ably assisted by his teammates, Fraser and Leonard, on the first line. Ackers and Geraldi were strong defensively, while Fox played his usual strong game in the nets. The second line played a strong checking game, but did not function as well offensively as in previous rames.

The business part of the meeting opened with the report of Session by the Clerk, H. E. Hulin.

"Looking back over the record of the past year the Session of your Church finds great cause for gratitude to God for His continued goodness. The year has been marked by steady progress in every department of the Church. The average attendance was slightly in advance of last year. In the summer holidays the church edifice was beautifully re-decorated, both upstairs and down, under the careful supervision of the Committee of Siewards. General satisfaction has been manifest both with the colour scheme and with the thoroughness with which the work was executed. Withal, the church interior presents a warm and attractive appearance.

During the time this work was underway, the services of worship were held in the Masonic Hall. To the Brethren of this Order our grateful appreciation is expressed for their service and courtesy.

CAR BURNS

Some time between the bours of midnight Friday and Saturday morning the Ford coach belonging to Deputy-Resve G. B. Bedford, of Rawdon, was completely destroyed by fire. Mr. and Mrs. Bedford had attended a social event in Springbrook and on their return the car became stuck in the snow near their home. Leaving the car, they walked home, intending to return for the vehicle in the morning. The next day, much was the Deputy-Reeve's surprise to find his car a mass of ruins. It is thought a short circuit in the wiring caused the fire.

The increase in the radio license fees from \$2 to \$2.50 to take effect on April 1st and the further ruling that owners must have a separate license for each receiving set is meeting with some criticism locally. While the chief objectsome criticism locally. Any complaints made to the Department are ignored and many feel that it is more concerned over collecting the annual license fee than insuring radio owners of good programmes and reception.

IMPORTS VS. UNEMPLOYMENT

Canada is proud of her progress and also because she is maintaining a favourable trade balance which means that the value of exports exceeds the value of imports. Yet she still has a serious unemployment problem on her hands and is spending "millions on relief." This is an anomalous situation.

an anomalous situation.

A study of government figures brings some enlightenment for, while Canada, as a whole, enjoys a favourable trade balance, her trade relationship with the United States tells a very different story. For the fiscal year of 1935, Canada's imports from the United Kingdom were valued at \$111,682,490, or 21.4 per cent. of her total trade with the British Isles. Exports were approximately 250 per cent of the imports. United States imports to Canada were worth \$303,639,972 as against exports of \$224,697,923. It is this last comparison which gives cause for concern and debate about whether we, as a nation, are giving sufficient thought to the "Buy Canadian" idea.

It would be improper and unsound, from

It would be improper and unsound, from many angles, to argue that we should adopt an insular policy, but, when we have so many unemployed, we might not do amiss to encourage increased purchases of Produced in Canada merchandise, in preference to that which is imported, so that more employment opportunities for our own people would be developed.

While it is true that no nation can live unto itself alone — and this is particularly true of Canada nd the United States because of their proximity — we could, without harm to our relations with the United States, endeavour to remove some of the disparity which exists according to the trade figures, and the only logical way of doing this seems to be to insist on "Buying Canadian" whenever possible.

It may be argued, in rebuttal, that we have to import that which we do not produce or make. Have those, who use this argument, ever stopped to consider that, if the demand for anything arose it would not take Canadians long to find ways and means of supplying that demand within their own country? It is in this way that more employment would be provided for our own people.

FAIR BOARD RE-ORGANIZED

Meeting in annual session last week, the Stirling Agricultural Society, comprising farmers of the surrounding community and a number of public-spirited citizens of the Village, decided to sponsor once again the Fall Fair during the month of September next. The Society will also act in conjunction with the Ontario Department of Agriculture to stage the annual Championship School Fair, and in addition will sponsor a field crop competition similar to the one carried out last year for the farmers of the district.

Agricultural Societies throughout the Province have had a difficult time to get along during the years of business depression, with last year being one of the worst so far as the local Society was concerned. The epidemic of infamile paralysis, which caused the cancellation of the Rural School Fairs in the County, thereby cutting the Championship School Fair to a mere shadow of its former size, was perhaps the main contributing factor in the big decrease in attendance. Similarly the clash in the dates of the Kingston Exhibition and the Stirling Fair affected in no small degree the number of exhibitors and entries. However, the directors have met all their obligations, including the payment in full of the prize money, and are facing the future with a determination that the present year will be one of the outstanding years in the history of the Society.

The new Board of Directors is again head-

in the office of Treasurer, with Wm. Patterson taking over the duties capably filled by Gilbert Thompson for the past three years, and the various committees, with a few exceptions, are composed of the same members.

while the presentation of the financial report of the Society showed the local organization to be in a particularly good position, it is quite evident that some means will have to be adopted to raise funds to reduce the outstanding indebtedness against the property. A number of suggestions were advanced at the meeting for the consideration of the programme committee and plans are already under way for the holding of an Ice Carnival and Moccasin Dance in the local arena on the evening of February 14th. ance in the

The Agricultural Society is a community organization, and is deserving of the support of every citizen of the district. While its primary purpose is the promotion of things agricultural, it is not only the farmers who benefit from its activities, because any improvement in the conditions affecting the tillers of the soil is soon reflected in an improvement in business in the Village. Consequently, it behooves the citizens of the Village to give their support to the Society just as much as the farmers. The officers and members give freely of their time and energy with no thought of personal gain in the interests of a community enterprise, and we hope that the citizens will do all within their power to help them in raising funds for the Society.

CURRENT COMMENT

Next Wednesday is Candlemas Day — or the day when Old Bruin and the groundhog are supposed to make their first appearance from their winter sleep. According to the legend, we will have six weeks more of winter if the sun shines on that day, but unless the tail end of our winter is worse than what we have had so far, there is not much chance of anyone worrying a great deal about what Old Sol does on the coming Wednesday.

The expected increase in automobile accident insurance was announced this week as being from 10 to 20 per cent. higher in Ontario and 25 per cent. higher in Quebec than last year. It was announced that the increase was the result of the large number of automobile accidents during 1937, but what we would like to know is why motorists who didn't have an accident should be required to pay an increased premium because some other fellow did.

The proverbial January thaw reached this section over the week-end with mild weather on Sunday and practically an all-day's rain on Monday. As a result the roads of the district are very sloppy and the streets of the Village are anything but pleasant for pedestrians. However, the rain was most welcome to those whose cisterns had run dry and now that they have been replenished milady will find the work of wash day somewhat easier.

Twice within the past week the members of the Stirling Fire Brigade have been summoned to extinguish small fires attributed to overheated pipes and dirty chimneys. Although no damage resulted in either case, had they not been discovered in time heavy loss of property might have resulted. Citizens are urged to check up on their heating apparatus and see that pipes and chimneys are kept clear of dirt. A little care may mean the saving of thousands of doliars of damage to property, or even the saving of a human life.

No one will find fault with the appeal for economy in all departments of the County administration which was made by Warden H. Larkin in his inaugural address last week at the January session of the Hastings County Council held in Belleville. Hastings County is in a strong financial position, with its debenture debt being comparatively low, but any increase in its county rate would be a hard blow on many of the townships that have been finding it difficult to meet their county obligations. With conditions throughout the county as they are, reduction in the County tax would be most welcome and Warden Larkin's appeal for economy is a most welcome one.

SOME TOWNSHIP

(Muskoka Herald)

Publicity is being given to the quantity of Oro. Simcoe County, which has a financial standing that must be a record. Always they have council devoted to the pay-as-you-go principle, and as a result have no debt. Their financial statement for last year showed a cash balance of \$6,666.62.

Their tax rate, believe it or not, is two mills. And it is said that their roads are kept up better than many other townships in the County. They have relief problems, although most Oro people are farmers, and they have schools and roads and a municipal staff, yet on two mills they do it all and have something over. It occurred to us that the assessment might be made high in order to show a low tax rate, yet according to "Municipal Statistics" the assessment per capita is considerably lower than most.

START ON TIME

START ON TIME

(Tweed News)

We have only one complaint to make regarding local hockey games and that is the tardiness in starting. Team supporters cannot be expected to waste half an hour in a cold rink while players lackadaisteally attire themselves. The games are advertised at a certain hour and the clubs should make it a point to be on the ice at that time. Tweed should arrange, if playing away from home, to leave in plenty of time to start the game on schedule and a mutual understanding should be made with clubs visiting here, along the same lines. Certainly, the local rink is not the warmest place imaginable on these zero nights and nothing will do more damage to attendance than late starting. This is an important matter which the local officers should not overlook. The hockey has, so far, been of high calibre but diliatory actions in facing the puck, militates somewhat from the enjoyment of the game.

If that is true, it is a condition which can be remedied, because the human nature of those in business in Picton is of the same kind as the human nature of merchants in other towns.

A betterment of business conditions in Picton, if such is needed or wanted, can come not so much through planned co-operation, as from each business men running his own business on a business basis and forgetting about the other fellow.

Fear of what the other fellow is going to do is at the bottom of most of the difficulties of today.

The seasible thing is to forget the fear, work hard, give the public honest value and leave the rest to Providence.

THE LATE MRS. HARRIETT CLARK

(The Enterprise, Eatonia, Sask.)
The death of Mrs. Harriet Clarke occurred on Wednesday, Jan. 5th, 1938, at the age of ninety years and seventeen days. Born in the County of Cork, Ireland, she came to Hastings County, near Belleville, Ontario, with her parents when one year of age, and spent all her life in that vicinity.
Shortly after her marriage to Jas. R. Clarke, they moved from Belleville to Madoc Junction, where she lived for about 41 years, then moving to Stirling with her son, J. M. Clarke, After fourteen years in Stirling she went West in 1928, to make her home with her daughter, Mrs. A. Seeley. Her husband predeceased her about 40 years ago.

Laved and respected by all, Mrs.

Clarke, of Belleville, Ont., Frances Clarke, of Trossachs, Sask., and Mrs Albert Seeley, of Mantario.

ARNPRIOR ROCKS IN EARTH-

No damage was reported on Monday from an earthquake which shook Arnprior, an Ottawa Valley town, shortly after midnight on Sunday. It was preceded by a short, sharp explosion, which was loud enough to waken many people. The tremor lasted about 30 seconds. At Ottawa, the Dominion obseratory recorded a severe earthquake at 5.51 a.m. E.S.T., but the selsmologists were unable to determine the distance of the epicentre. The record continued 3½ hours and possibly was the earthquake which rocked Hawaii.

NEWS OF INTEREST

FOR BUSY FARMERS

Raise Your Own Living
Whether willing or not the majority of farmers are now obliged to supply more of their own needs. The following list may provide suggestions for further economy: instead of going each evening to local pub.

When he had drunk the first glass his wife said — "Now, John, lad, you can reckon you've saved a penny."

"You're right, lass," he replied. "I'll draw another one and make it two-pence we've saved. At this rate I'll soon be able to buy thee a fur coat."

for further economy:

1. Milk a few good cows; feed recommended rations.

2. Fatten one pig for every two adult members of the family; cure the meat properly.

3. Keep at least 100 good hens, correctly housed and fed.

rectly housed and fed

4. Raise a good garden; water from windmill if possible.
5. Plant only cash crops, which

show little or no surplus.
6. Grow your own stock feed.
7. Butcher cows and steers, trade meat with neighbours.
8. Raise your own living; keep your roof tight.
9. Get down to earth and do the best you can today.

ter the chicks; there may be less disease and mortality; broilers will catch a high market, and pullets should be laying early in the fall or even late in summer when egg prices are at their peak. Of course, if many started hatching all their chicks in January the higher prices for broilers and eggs would be wiped out, and chicks hatched at some other season would find the best market. Brooder houses unsuited for prolonged zero weather and the higher price for chicks will limit the number going in for January chicks. Nevertheless there should be good returns for the few who do, and they can prolong the use of their equipment as those who have another batch in the spring so as to have pullets coming into production at different seasons. January chicks will go on to range early in the season, or they may be raised indoors until ready for the laying pen.

Field Roots for Horses
Turnips and carrots are the most
commonly used of field roots as feed
for horses. There is no question as
to the value of field roots as feed for
horses, a value which is too little ap-

preciated.

Roots are rarely sliced or pulped when fed to horses for the reason that the outstanding virtue in root feeding is the beneficial effect on the teeth and gums resulting from the necessary biting into the whole root. The principle values of roots in the ration for horses are:

on which profitable returns may be expected from the application of this element. The rate of application will, of course, depend on a number of factors, chief among which are the character and fertility of the soil, and the nature of the crops to be grown. For most grain crops an application of muritate of potash of 50 to 75 pounds per acre, will be found sufficient. For clover and alfalfa these amounts might be doubled with profit. For potatoes, roots, corn and leafy crops generally, 100 lbs. of muritate of potash per acre may be considered an average dressing, but frequently 200 pounds may be profitably used. As a rule it will be found more advantageous to use potash with forms of nitrogen and phosphoric acid than alone and it is always advisable to try out the fertilizer on a small scale before making large purchases.

The Measurement of Fuel Wood
Fuelwood is sold by the cord or by the wagon box load. A standard cord is a pile of wood 4 feet high, 4 feet wide and 8 feet in length, giving a total of 128 cubic feet. The amount of solid wood in a cord varies considerably. Crooked sticks, small diameter of the sticks, loose piling and prominent knots are common characteristics that reduce the volume of solid wood in a cord.

It is customary in many localities to sell wood by the short, face of running cord. A short cord of wood is a qual to 4 cords of 12-inch wood of in a cord.

Farmers working in the woods in the vicinity of the outlet, Charleston Lake on Friday experienced a thrill when nine deer were seen in one group on the shores of the lake. The deer appeared in no hurry to leave the spot, although wood-cutting operations were being carried out within a few hundred feet of where they were feeding. Less than a decade ago it was unusual to find one deer in the area but reports during the past few weeks indicate they are becoming numerous in that section.

SHOOTS LAD IN A JOKE

Not realizing that the gun he was pointing at 15-year-old John Tinney was loaded, Gerard Wilson, 21, laughingly said "I'm going to shoot," and pulled the trigger, sending a full charge of birdshot fato the boy's thigh, according to facts supplied the Campbellford police late Saturday. Tinney was rushed to the hospital and the pellets were removed. He was not seriously hurt, it was disclossed.

The accident occurred when Tinney, a messenger boy for a local grocery, was returning from an errand and met Wilson and another youth, Harry Keating, who were returning from a rabbit hunt. Jokingly, Tinney said: "Don't shoot me," and Wilson is said to have replied in the same jocular vein that that was what he was just going to do. He then pressed the trigger. Tinney managed to get on his bleycle and reached a service station before he colfapsed. Wilson was charged with criminal negligence and taken to Cobourg jail. Later he was released on \$500 bail and will appear in Cobourg Police Court on Monday, Jan. 31, for trial.

gives Tweed six victories with only one defeat.

The Madocers were unable to cope with the speedy attack unleashed by the Tweedsters and it was only superlative work on the part of the veterant Hulin in the visitors' net that saved, them from a worse trimming. "Tip" Tummon, Courneyea, Elsbury and Meraw looked the best for Tweed, with Hayworth, Hulin and Alexander starring for Madoc. Jack Tummon counted first for Tweed and then his brother, "Tip" went down to score two goals in quick succession. Elsbury made it 4-0 for Tweed near the close of the period on a pretty solo effort. Baldy Leal and Kellar each scored with the second period concluding 5-1. Alexander, on the prettiest play of the night, went through the whole Tweed team to make it 5-2, while Courneyea counted for the homesters as the bell rang. The game was comparatively clean with Tweed drawing down the bulk of the penalties.

LIABILITY INSURANCE RATES INCREASE

Increase of 10 to 20 per cent in Ontario and 25 per cent in Quebec for public liability insurance was announced on Monday by the Canadian Under writers' Association. The new rates for motor-car owners are effective for 1938 on renewals and new policies.

The Association said the increase was due entirely to the "ever-increasing" number of motor car accidents in the two provinces. Ontario had 40 per cent. more highway fatalities last year than in 1936 and "latest figures for Quebec indicate the final result for 1937 will be much the same there."

bring training and other rebabilitation schemes into effect.

Everyone recognizes the fact that present business recession in United States may cause a certain amount of suffering in this country, and if another economic downturn should come here, Canada must be prepared for any emergency. Then again, the Dominion Treasury is in a relief-weakened state and it has now reached the point where mere indifference cannot be tolerated. It is no secret that Ottawa is not contented with the latest reports on relief and unemployment matters, which indicate that although a year of hearty recovery, particularly in foreign trade, yet the relief roll has only been decreased by less than 200,000. In other words, a twelfth of Canada's population is still living on public relief.

These figures and information are drawn from dependable sources such as public welfare officials, social service bodies and from the statistics collectived by Government agencies at Ottawa who obtain these facts from various sources across the country.

The Dominion Government plans to act upon the recommendations of the National Unemployment Commission, which investigated the situation from every angle for the past 18 months, and it is reported that these public-spirited citizens suggested that the Government should formulate concrete plans whereby everyone in Canada There are 956,000 persons in this

There is a tense feeling throughout the Capital and it is of a kind that usually forerous a session that is marked by some history-making decisions by the Federal Government.

One of the hints put forward by those who know intimately the situation in Ottawa is that the Dominion Government has decided to make a definite step in establishing a public relief policy that will remove the present haphazard and unsatisfactory method, whereby the Government carries a very heavy burden with no assurance that a national economic crisis or depression would not result in a sudden disaster or streat calamity for the whole financial structure of Canada. Consequently, a number of scientific schemes or plans have been created to bring about a combination of all the economic and financial forces of this Dominion in a manner that will bring trachting and other rehabilitation schemes into effect.

CANADA'S NATIONAL WAR MEMORIAL

The National War Memorial will soon be erected in Ottawa. This structure, occupying 35 large crates, was shipped from England in parts this year. It was fashioned by seven brothers and a sister in studios at Farzborough, Kent. It is the result of ten years' work

porough, Kent. It is the result of ten years' work.

When it was decided that Canada should have a memorial of her own in hen capital city, architects and sculptors were invited to submit designs. Over one hundred entries were received, among them that of an English sculptor, Vernon March. Later he heard from his radio that a Kent sculptor, namely himself, had won an international competition for the Canadian War Memorial. He and six brothers and their sister at once set to work on the full-scale design. That was in 1926, but in 1930 tragedy overtook the family, for Vernon March died. The work, however, went continuously forward, the brothers and sister basing their labours on the small soft-clay model made by their brother. It is now kept under a glass case in their home in Kent.

When completed, the memorial was erected temporarily in Hyde Park, where it made a deep and lasting impression on all who saw it, a silent reminder of the sacrifice made by 60,000 Canadians.

Consisting of a tall granite arch, surmounted by huge bronze figures of Liberty and Victory, the memorial symbolizes the triumph of peace over war. At the base of the arch are 22 figures representing every branch of the war service flurrying towards the new dawn and leaving behind them an unlimbered gun. The only inscription on it is simply "1914-1918". All told, the memorial reaches a height of seventy feet.

Sculptures by the March family are already well-known in Canada. In Hamilton, for example, there is the famous memorial to the United Empire Loyalists, executed by Sidney March; in front of the Parliament Buildings in Victoria, British Columbia, stands Vernon March's fine statue of Champlain.

CANADIAN SCALLOP SUPREME

Place in a greased baking dish three cups of diced fresh or left-over vegetables (carrots, potatoes, onlons, etc.) and add one cup of cooked and flaked Canadian fish. Pour a white sauce over the flsh and vegetables, sprinkle finely-sifted bread crumbs over the top, dotted with butter. Bake in a moderate oven until the crumbs are nicely browned. Any kind of Canadian fish may be used. The white sauce can be made by melting three tablespoons of fat or butter, blending in three tablespoons of four, adding two cups of liquid — either half milk and half vegetable water or all milk — and cooking the mixture until smooth and thick, meanwhile stirring constantly.

Canadian Fish Foods are comparable to meats in nutritive value and they are especially rich in healthguarding minerals and vitamins.

GOLD FOUND AT COE HILL

Discovery of gold on the farm of Adlan Sprague, ten miles north-west of Coe Hill, toward Apsley, has been followed by recent reports that the property is to be developed as soon as Spring makes outdoor work possible. The find has been followed by preliminary expaniation or mineralized rock, the results being so promising that they were regarded as warranting further work.

Local interest in the reports reaching Coe Hill, have stirred up hopes that the property will realize all the favourable news that has been heard since late last fall. It is understood that Mr. Sprague is himself proceeding with the next step of development, but no immediate work is contemplated until winter ends. Discovery of gold on the farm of

"So far as I am concerned you would be very unwise to attempt to disturb this verdict," Mr. Justice Henderson said, and Mr. Justice C. A. Matsen concurred.

WHAT WINTER REMEMBERS

WHAT WINTER REMEMBERS
When winter's snows are falling,
And winter's storms are calling,
Our thoughts fly back together
With the roses of the year.
For in our garden hiding
Is the fragrance long abiding,
The perfume of the roses,
The roses of the year.
So the winter touches summer,
And the summer greets the winter,
And all because of sweetness
Left by roses of the year.
For love may go a-hiding,
But remembrance is abiding,
Abiding in the garden,
The garden of the heart.

Of interest to Canadian consumers of milk are the facts recently brought to light about the milk delivery system in Wellington, New Zealand. During the wrangle over the Toronto milk price, it was suggested in some quarters that, as neither the farmers nor the distributing companies were making undue profits, the only way to reduce the price to the consumer was to municipalize the city's delivery system as has been done in Wellington, the capital of New Zealand, which had one of the few examples of city-owned distribution systems in the world.

Allowing for all possible différences in the local situations, the Wellington experiment, which is usually regarded as the world's best example of city-owned mflk distribution, does not appear to have effected as great an economy of distribution as the much maligned Toronto private-ownership sys-

Mr. George Luery expressed the voice of the congregation in thanks to Mr. and Mrs. Scott for their splendid work in the congregation. He hoped that 1938 would give them energy and spirit to carry on the work and thus further endear them selves in the hearts of their people. Mr. Scott expressed his appreciation very rittingly.

At the close of the business of the meeting, Mr. Scott spoke in glowing terms of the services rendered by Mr. Gerald Clute to the congregation and choir. He welcomed Mrs. Clute into the church and assured her of the warm feelings already manifested towards her. Mr. H. C. Martin presented "Jerry" and his bride with an electric "Sunbeam" coffee-maker.

Mr. Clute expressed his appreciation in his usual pleasing manner.

At the close of the meeting a social half-hour was spent during which the ladies served lunch.

STIRLING CLINCHES

STIRLING CLINCHES SECOND PLACE

(Continued from Page One)
Madoc drew first blood about midway in the first period when Hill golfed one from along the boards to hit the twine behind Fox. Stirling came back with a rush and kept a steady bombardment on the visitors' net, but were kept off the score sheet until Leonard grabbed a pass out free the corner to tie the score. Continuing to press their efforts were rewarded when Robinson scored from directly in front of the net to give his team the lead which they never relinquished.

ed.

The second period was a repetition of the first, with both teams giving their best and the locals increased their lead when Reid took a pass in the corner and stickhandled his way out to the front of the net to beat Hulin with a backhand shot. Reid was particularly brilliant in this stanza and staged a n umber of thrilling rushes through the visiting team, only to lose control of the puck or be beaten by Hulin.

The final goal came late in the third period when Morton broke away from a Madoc offensive and tore in on Hulin to whip a pass over to Butler who steered it into the open side of the net. Madoc put on a driving offensive in this period, but the good work of Fox, backed up by good defensive play by his teammates kept them off the score sheet.

The return of Harry Ingram to the local defence strengthened this department as well as the offensive, while Robinson, Leonard, Morton and Reid were the pick of the forwards.

For the visitors, Taylor, Embury, Alexander and Hulin showed the best efforts.

"During the year the work of the Superintendent of the Sunday School was carried on by Mr. William Fitchett, who gave of his services most generously. The Sunday School has now been re-organized with Mr. J. L. Good as Superintendent.

"The finances of the local church have been maintained in a sound condition. There has been much evidence of the sincere interest of our people in those who live in distressed areas and gifts of food and clothing have been generously donated. Many letters of appreciation and thanks have been received from the West. The Roll of members shows a slight increase over last year.

We would express our thanks to those who, in all departments of the Church's work, laboured as faithfully to further not the interests of a congregation only, but the interests of a congregation only, but the interests of the Kingdom of God."

The Treasurer's report was given by Mr. R. B. Düffin. Although much extra expense had been taken on by the congregation, the treasurer's report showed that the outlook for the future was very, encouraging. Mr. Linn moved a vote of thanks to the Board of Stewards for their fine services and after being seconded by Mr. W. Heasman, was passed on to the chairman of that Board, Mr. H. C. Martin. Mr. Martin expressed his thanks and stated that he found cooperation from all members of the congregation.

All other reports of the various organizations of the church were very encouraging to the congregation and a credit to each society.

Mr. W. Drewry and Mr. W. S. Martin were re-elected as elders for a term of five years. Messrs W. Jeffery, E. G. Balley, R. A. Patterson were re-elected as stewards for a term of the years.

In the course of the evening the community singing was lead by Mr. The Distance and the course of the evening, mailing the contest one of the clean-dead with Stirling two processes and a credit to each society.

JSED TO SPEND ALL DAY AT THE KIRK

(From the Midland Free Press)
Presbyterians, like the old grey mare, "ain't what they used to be." On Sunday evening we heard Rey. A. C. Stewart, the new minister of Midland's Presbyterian church, invite his hearers to come out regularly to the night services, promising that they would always be through by eight o'clock, and then preaching an excellent 15-minute sermon.

Our thoughts went back to our early Presbyterian days in the old Scotch town of Galt. There were some fine old "sermon tasters" in Galt's Knoc church then, and woe to the "meenister" who dared offer his people a discourse which was not at least one hour in length. And when we compalined to our elders, as we young sters sometimes did after a "saimmon" that went longer than the bour, we were told of the good days of Rev. Dr. John Bayne, when the people drove in from the countryside to spent the whole morning and afternoon at the church. They brought their lunches with them, and the service was adjourned at one o'clock for an hoff to enable the preacher to get his second wind and the congregation to partake of their sandwiches. Recess over, the people re-assembled in the kirk and so on, to the bitter end. The last people re-assembled in the kirk and so on, to the bitter end. The last peaks were assembled in the kirk and so on, to the bitter end. The last people re-assembled in the kirk and so on, to the bitter end.
